Get the value of accounting specialists without the stress

Are you spending too much time and money on back-office issues when you could be providing more resources to your community? Is your financial information reliable, and do you get it fast enough to make strategic, proactive decisions? Are you concerned about your risk of fraud?

Wipfli's accounting team can help. We take the stress out of everything from day-to-day bookkeeping to preparing financial reports to providing financial analysis and advice. We consistently deliver actionable insights to help

you make strategic business decisions. And we're committed to frequent and regular communication, helping make us feel like a true part of your organization.

With our consistent service, you can enjoy significant savings and more time to focus on your nonprofit organization's priorities. No more worrying about turnover or how to create efficiencies within your accounting department. Our professionals bring best practices, years of experience and unique knowledge to your organization.

Wipfli performs all of the day-to-day functions of an in-house financial team – **without the cost and complexity.**
